

What is an ACDB & how does it work?

An ACDB includes necessary surge protection devices (SPD), AC fuse, and MCB to protect the appliances from any type of electrical damage or high voltages. It receives the AC power from the solar inverter and directs it to AC loads through the distribution board.

What is an ACDB in a solar inverter?

The ACDB (Alternative Current Distribution Box) is a small solar device that is installed between the solar inverter and your home load. An ACDB includes necessary surge protection devices (SPD), AC fuse, and MCB to protect the appliances from any type of electrical damage or high voltages.

What is the difference between ACDB and ACDB?

It prevents your appliances from being damaged. Single phase ACDB is used in solar systems with capacities up to 6kW, while three phase ACDB is used in higher capacity solar systems. The price of ACDB is determined by its model, capacity, solar brand and many other factors.

What are ACDB & DCDB AJB?

Sale! ACDB, DCDB and AJBs are power distribution cum safety circuit boxes that prevent our appliances and solar components from short circuiting and high voltages. They act as circuit breakers when the power fluctuates and electricity surge flows through these distribution boards.

What is solar ACDB & DCDB?

Solar ACDB/DCDB both are an important and necessary part of a Solar Power generating system. Junction Boxes provide extra electrical protection to the solar system during failures. Solar DCDB provides the interconnection between the input string from the solar panels, and the output string to the solar inverter.

How much does DCDB cost?

(Inclusive of all taxes) Prices can vary ₹ 3% to 5% depending on location, promotions and availability, and solar brand. In recent years, the specifications of DCDB like weight, material, and adaptability have seen a lot of development. Now it comes with many great components. You can check its detailed specifications below.

Manufacturer of a wide range of products which include solar acdb box, solar acdb (ac distribution box), acdb solar junction box, solar acdb panels 100 kw, solar ac combiner box 150 kw with nvr, ac spd, ryb lamp and solar acdb 45-60 kw with no volt relay, ac spd, ryb indicator.
