

Who is advanced solar?

Advanced Solar (Pty) Ltd is a professional energy service company established in 2011. Our vision is to become the leading clean energy provider to socially integrated communities, private businesses and local municipalities, in doing so we intend to become champions of clean energy solutions.

Is solar energy a solution to South Africa's energy challenges?

Green energy, especially solar power, has emerged as a key solution to South Africa's energy challenges. It's a clean, abundant, and sustainable alternative that mitigates the effects of climate change while diversifying the energy mix. Solar energy, in particular, comes with a slew of benefits for the environment, businesses, and homeowners alike.
