

What does the Austrian Energy Agency do?

The Austrian Energy Agency was established by the federal government and states to promote clean energy use in Austria. Besides the Austrian Energy Agency, which acts as a national energy agency, regional institutions performing the tasks of an energy agency exist in all Austrian federal provinces.

Who is Austria Energy Group?

The Austria Energy Group was founded in Vienna, Austria in 2006, where its headquarter is located with subsidiaries and offices in Europe and Latin America. Since its commencement, the Group has been focused on the site development and technology integration, construction (EPCM), operation and management of renewable power plants.

What is the largest energy company in Austria?

OMV AG, a multinational integrated oil, gas and petrochemical company, is the largest energy business in Austria, with a turnover of EUR36 billion in 2021.

What is energy in Austria?

Energy in Austria describes energy and electricity production, consumption and import in Austria. Austria is very reliant on hydro as an energy source, supported by imported oil and natural gas supplies. It is planned by 2030 to become 100% electricity supplied by renewable sources, primarily hydro, wind and solar. [citation needed]
