Comparatively, partial-home battery backup systems usually store around 10 to 15 kWh. Given that power outages are infrequent in most parts of the country, a partial-home battery backup system is generally all you'll need. But, if your utility isn't always reliable for power, whole-home battery backup may be the way to go.

Battery House is a convenient way to shop for your batteries. Unlike the high street shops, jewellers and even local supermarket, we can cut our overheads by selling direct, this means that we can pass our savings on to you, the customer. Using our online catalogue, your battery order can be accepted, processed and delivered straight to your door.
