A short and very rich article. It was initially hard to see that the article would be about a Taiwan company supplying cheap solar panels for Starlink. Starlink satellites reportedly used silicon-based solar cells, traditionally used for terrestrial applications, instead of the III-V compound solar cells more commonly used by the space industry.

Formosa Solar is taking concrete actions by developing solar power to fully support Taiwan's energy transition. # 2024-09-26. Formosa Solar Shortlists for 2024 BCCT Best Renewable Energy Award.
