Solar Kits. A solar kit is a bundle of solar energy generation equipment. These kits are sold in a package that makes them easy to assemble in off-grid solar systems, helping users avoid guesswork during installation. Calpha carries a ...

Solar Kits. A solar kit is a bundle of solar energy generation equipment. These kits are sold in a package that makes them easy to assemble in off-grid solar systems, helping users avoid guesswork during installation. Calpha carries a number of pre-designed power kits, each one designed to meet a customer's specific needs.

Off-grid solar systems, or stand-alone power systems, produce enough energy through the usage of solar panels and battery storage without having to tap into the electric grid. If you live in a mobile lifestyle on the road or in a remote area without reliable and affordable access to the grid, off-grid solar can be a great way to meet your ...
