The new Boicobo Sur-X1 reservoir, located in the Caipipendi field of the southern department of Chuquisaca, is run by the Spanish company Repsol with participation from Shell and PAE. Bolivia has 10.7TCF of gas reserves that guarantees supply to the domestic market and its export commitments to Argentina and Brazil.

Bolivia has a high energy potential, both for traditional and alternative energy. Given its geological nature, the country produces more natural gas than oil (62% of total liquids produced from condensed). Its natural gas reserves are the second largest in South America (after Venezuela), but considering those that are liquids free, they are the first. ... Continue ...
