

Customers pay a deposit of Ksh 2999 (depends on the product) then take the solar system home. After that, the customer will pay Ksh 50 a day for a period of one year to officially own the solar system. The daily payments are made through M-Pesa. This way, in addition to getting solar power, customers also slowly off-set the cost of the device.

What Affects the Cost of a Cheap Solar Panel System? Before I wrap up this guide, I want to briefly talk about the factors that affect the cost of a cheap solar panel system in general. Efficiency: The main way manufacturers keep costs down on cheap solar panels is by using less sophisticated solar cells. This usually means that affordable ...
