

Who is Cooper Energy Limited?

Cooper Energy Limited is a leading Australian oil and gas exploration and production company that has been operating in the energy sector for over two decades. The company is committed to providing reliable and affordable energy solutions to its customers while also taking steps to reduce its carbon footprint and promote sustainable practices.

Does Cooper Energy Limited have a PPA?

The PPA will provide Cooper Energy Limited with a reliable source of renewable energy and help the company to achieve its decarbonisation goals. Overall, Cooper Energy Limited is a leading Australian energy company that is committed to promoting sustainable practices and reducing its carbon footprint.

Is Cooper Energy a sustainable company?

Cooper Energy Limited is also committed to promoting sustainable practices in its operations. The company has implemented a range of measures to reduce its environmental impact, including reducing waste and water usage, and promoting biodiversity in its operations.

How is Cooper Energy promoting decarbonisation?

One of the key ways that Cooper Energy Limited is promoting decarbonisation is through its investment in renewable energy. The company has recently announced plans to develop a 5MW solar farm at its Casino gas project in Victoria.

Why is Cooper Energy launching a solar farm?

The solar farm will provide renewable energy to power the gas processing plant, reducing the need for fossil fuels and lowering the project's carbon footprint. In addition to its investment in renewable energy, Cooper Energy Limited is also exploring new technologies to reduce its emissions.
