

Semi automated systems are high density storage systems that allow you to store multiple pallets in a very deep lane configuration. The system also gives you the flexibility of retrieving pallets from any lane with a shuttle device. The pallets ...

Until the Varta Storage integration (Add vartastorage integration by Vip0r · Pull Request #63736 · home-assistant/core · GitHub) is accepted, you can access the Varta Storage via Modbus. The following snippets are for the Varta pulse neo. # Modbus Varta pulse neo modbus: - name: "mb_varta" type: tcp host: 192.168.40.4 # replace with your ip of the your ...

I'm running HAOS on an RPi 4. Recently, the 32 GB SD card (this post isn't about if you like HA running on an SD card) filled up and corrupted my database (no big deal), so a new database was started. This set me on a quest to find all of the files which were filling it up. I found a few GB worth of Amazon package images in the custom_components and from ...

Ok I tentatively have something working with a VM running HassOS to represent the Home Assistant Green and here was my process in case anyone is curious:. Created a USB for udev loading based on the thread located here: [SOLVED] Mount USB drive in Hassio to be used on the Media Folder with udev customization Formatted the external drive ...

Describe the issue you are experiencing Egypt restarted implementing DST on April 28th, 2023, it was stopped back in 2011. since the time change a few days ago my HAOS running on ...

Oh the wonderful file system of home assistant :D Basically you have 3 places that may take room: recorder database [core=ssh ~]\$ du -ah /config/home-assistant_v2.db. backups (note that some may not be visible on UI, dont ask why) - check with

Hi, My Home Assistant storage is regularly full, so I have to delete some backups to continue using it. My first thought was that frigate was using most of the space, but after deleting all of the clips, snapshots and recordings my storage is still 90% full. According to frigate the "recording & snapshots" location is using 103GB+.

Can someone give me detailed instructions on accessing the hidden files in ".storage" ? I just got a brand new HA Blue and in the process of getting it going I somehow have the wrong username and password. Instructions under Authentication - Home Assistant mention deleting some files from .storage but nobody gives details on how to do it. Unfortunately SSH is ...

Hello, Every few hours I get "Network storage device failed". The network storage is attached to Raspberry Pi

(OMV) and is normally accessible from local computers when HA comes up with this message. After I hit "reload" the message disappears. Anyone experienced something similar?

Apparently there are now three frontend modes, storage, auto-gen, and yaml. I seem to be "stuck" in auto-gen mode I have been using HACS for awhile and since I ended up in auto-gen mode I have had this issue that HACS will not automatically add resources when a repo is installed. According to the dev resources will not be automatically added in "auto-gen" mode. ...
