

What is Energport Energy Storage?

Energport's energy storage systems provide a fully integrated, turnkey energy storage solution using lithium iron phosphate batteries. These batteries, utilized in hundreds of thousands of electric vehicles, offer unparalleled degrees of safety and reliability within the Energport line of outdoor commercial & industrial and utility scale energy storage systems.

Who is Energport?

Energport, Inc. is a Silicon Valley based supplier of integrated energy storage systems. With strategic partner Guoxuan High-Tech, one of the world's largest lithium-ion battery manufacturers, Energport can consistently deliver high quality energy storage systems to exceed customer needs. Energport's offering ranges from residential energy storage systems to large-scale, containerized systems for businesses and utilities.

What makes energport energy efficient?

Energport - We make energy efficient! We Make Energy Efficient! Scalable energy storage solutions for any project. Fully integrated, pre-configured and packaged systems reduce footprint, onsite installation time and cost, increase quality and reliability. Scalable from Residential to Utility.

What is an Energport system?

Energport systems are multi-MWh solutions that are actively cooled and can operate in a wide range of temperature conditions. Energport serves the utility and developer market with these systems, available in 40' container or skid-based designs.

Today Energport Inc. announced it had commenced installation of a 72MW/72MWH Battery Energy Storage System (BESS) for a major global independent power producer (IPP). The system, which will be divided across two sites, will complement existing onsite renewable energy generation and will be used to provide fast responding frequency ...

With strategic partner Guoxuan High-Tech, one of the world's largest lithium-ion battery manufacturers, Energport can consistently deliver high quality energy storage systems to exceed customer needs. In addition to our products, Energport provides support to design, size, and finance the most appropriate system for our customers. ...
