Our energy solutions cover various sectors, from light industry to specific infrastructures such as health and data centers. Thanks to our expertise, we offer tailor-made solutions and efficient after-sales service.

Is the DRC a 'Climate Solutions' country?

The DRC has been described as a 'climate solutions' country with its abundant reserves of green minerals, pristine forests and large hydropower capacity. A Country Climate and Development Report (CCDR) for the DRC presented at COP28 lists these four urgent interventions: 1.

How much hydropower does DRC have?

The country is sitting on untapped reserves of hydropower capacity. According to the International Hydropower Association (IHA), the DRC, enriched by the Congo River, holds an exploitable hydropower potential of about 100GW. "However, socio-economic challenges have restricted exploitation to just 3%.

In 2020, the US-funded Power Africa, awarded a grant to a company to introduce pay-as-you-go (PAYGO) solar energy solutions to DRC's Ituri and North Kivu provinces.
