Did North Korean hackers extort \$88m from US companies?

The US Department of Justice (DoJ) has launched a crackdown on North Korean hackers engaged in crypto theft in recent years. It indicted 14 North Korean nationals who obtained employment as remote IT workers at US companies and were accused of generating more than \$88m by stealing proprietary information and extorting their employers.

Is North Korea a communist country?

Over time North Korea has gradually distanced itself away from the world communist movement. Juche, an ideology of national self-reliance, was introduced into the constitution as a "creative application of Marxism-Leninism" in 1972. The means of production are owned by the state through state-run enterprises and collectivized farms.
