

Does Georgia Power offer solar?

From home installation and our buy back program, to non-installation options, our goal is to make solar an option for every Georgia Power customer. Learn more about our behind-the-meter solar programs, including the new Renewable and Nonrenewable Resources (RNR) program, and how to interconnect your system.

Does Qcells have a solar plant in Georgia?

Qcells opened its first factory in Georgia in 2019 and hired 750 people to manufacture 1.7 GW of solar. This initial investment was made possible in part by the Section 201 tariffs imposed on solar cells. Last year, Qcells announced a second expansion, which would add 1.4 GW to its manufacturing output and hire 535 more people.

Do all solar facilities belong to Georgia Power?

Not all solar facilities you may come across belong to Georgia Power. We have constructed and are operating 16 solar farms and additional demo facilities across the state of Georgia, many in partnership with military installations. The largest, at 128 MW of capacity, is located at Robins Air Force Base in Warner Robins, Georgia.

Is Georgia a good place to install solar panels?

Georgia has consistently been in the SEIA Top 10 for solar photovoltaic installations for the past 10 years, and our state has one of the largest voluntary solar portfolios in the country.

Does Georgia Power Company offer a solar extension program?

The Public Service Commission Order pertaining to Dockets 4822, 16573, and 19279 states that Georgia Power Company is to provide existing solar participants the option to extend the term of their current Distributed or Utility Scale generation for up to 35 years. Please select from the following options for more information surrounding your program.

What percentage of Georgia's electricity comes from solar?

Over 4 percent of the state's electricity now comes from solar power. Georgia's energy solutions providers are helping to accelerate the development of renewable energy products by lowering risks, reducing costs, providing access to innovative industry research, and investing in a superior infrastructure network.

ATLANTA - January 11, 2023 - Governor Brian P. Kemp today announced that Qcells, one of the largest and most-recognized renewable energy solutions providers, will invest more than \$2.5 billion to expand its solar module manufacturing operations in Georgia.
