To support the next phase of renewables growth, a broader policy mix focusing on deployment,

Founder and Director, Ronan Farrar entered the renewable energy sector in 2010 and gained his knowledge and expertise throughout the years. He officially started SolarOn SA, in 2021 as COVID restricted any trade from 2019. He has always been passionate about renewable energy and the way technology advanced from when he first started in 2010.

Green Energy Solutions har kontor og lager i Viborg. Vi er en organisation som brænder for den grønne omstilling og de projekter vi får. Sammen med vores samarbejdspartnere udgør vi en meget slagkraftig organisation som får tingene til at ske. Organisationens fokus er i praktisk at lave varige energireducerende tiltag for vores kunder.

Grid-tied solar systems connect to your Eskom electricity supply. Energy produced by solar panels is converted by an inverter to 220 Volt AC power. This energy is then "added" to your local electricity circuits. All energy that is produced by the solar panels is used by all the equipment on your local electricity circuits.
