

Who is Greystone energy systems?

Greystone Energy Systems Inc. is internationally recognized as one of the largest ISO registered manufacturers of HVAC sensors and transducers for Building Automation Management Systems.

What is Greenstone Energy Systems?

GREYSTONE ENERGY SYSTEMS PTE. LTD. (the 'Company') is a Private Company Limited by Shares, incorporated on 14 November 2011 (Monday) in Singapore. Its registered office is located at ONE RAFFLES PLACE building. The Company's current operating status is 'live' and it has been operating for 12 years.

Are Greystone products designed & tested in-house?

Using the latest design tools, internal collaboration and customer input, all Greystone products are designed & tested in-house to provide market focused products. LEAN MANUFACTURING

Who is customers greystone energy systems?

USTOMERS Greystone Energy Systems is proud to be a leading supplier of quality assured and approved sensors and transmitters for the HVAC/R industry. With a robust, competitively priced product line and superior technological competence, customers benefit on both price and per

Product Description. The single point temperature transmitter utilizes a precision sensor encapsulated in a 6.00 mm (0.236") OD, 304 series stainless steel probe and is available in various lengths (see ordering chart) All probes provide excellent heat transfer, fast response and resistance to moisture penetration.

Greystone Energy Systems Inc - A Message to our Customers and Suppliers - Bemsig Acquisition. Dear Valued Partner, It is my great pleasure to inform you that on September 29th, 2021, Greystone Energy Systems Inc. and our international subsidiaries were acquired by Bemsig. Bemsig is a wholly-owned subsidiary of Investment AB Latour (publ).

It is equipped with sensors with best in class accuracies to match cleanroom requirements, and can communicate with the building automation system via Modbus, BACnet[®]; or Analog outputs. It is powered by a standard 24 Vdc or 24 Vac power supply.

Converts airspeed into a Linear output signal Compensates for changes of air temperature Temperature output signal 0 - 10 VDC Optional Modbus output AC or DC voltage supply 3 Available probe lengths Made with corrosion resistant ...

4-Wire Photoelectric, integrated low-flow technology Low flow air velocity rating from 100 to 4000 FPM Plug-in sensor offers superb false alarm immunity and the latest sensor technology 24 VAC/DC or 120/240

VAC operation Two SPDT Form-C relay contacts Easy and quick mounting to round or rectangular ducts One easy-access Test/Reset button and improved LED status ...

Setup/calibration fully menu driven Selectable ranges of 0-100, 150, 300, 400 or 500 ppm Replaceable Electrochemical sensing element Optional on board relays with field adjustable trip point. Optional BACnet or Modbus communications ...

1/4" NPT NIST traceable calibration Weather resistant for harsh environments Fast response time Capacitance sensing element Ranges -14.7 through 10,000 PSIG (-101.4 through 68947.6 kPa) Accuracy to $\pm 0.25\%$ FSO DC inputs, current output Compensated temperature range: -20°C to 80°C (-4°F to 176°F) Operating temperature range: -40°C to 85°C (-40°F to 185°F) 17-4PH ...

What industry is Greystone Energy Systems in? Greystone Energy Systems's primary industry is Other Commercial Products. Is Greystone Energy Systems a private or public company? Greystone Energy Systems is a Private company. What is Greystone Energy Systems's current revenue? The current revenue for Greystone Energy Systems is . When was ...

Robin was appointed President and Chief Executive Officer of Greystone Energy Systems Inc. in July of 2015. Prior to joining GES, Robin held the position of Senior Vice President and Chief Operating Officer within various business units at GTECH in the gaming sector and spent 12 years with Alcatel in sales, marketing and business development.

Greystone Energy Systems Inc. is internationally recognized as one of the largest ISO registered manufacturers of HVAC sensors and transducers for Building Automation Management Systems. We have conscientiously established a worldwide reputation as an industry leader by maintaining leading-edge design technology, prompt technical support, and a ...

Product Description. The PMDT Duct Particulate Matter Sensor uses an optical sensor based on laser scattering principles and features innovative contamination resistance technology to perform highly accurate and reliable PM measurements.

News and Blog By greystone August 8, 2024 August 8th, 2024 Latour acquires QEL in Canada and expands further in North America Investment AB Latour (publ) has, through its wholly-owned subsidiary Bemsig AB, acquired 100 per cent of the shares ...

Setup/calibration fully menu driven Selectable ranges of 0-100, 150, 300, 400 or 500 ppm Replaceable Electrochemical sensing element Optional on board relays with field adjustable trip point. Optional BACnet or Modbus communications Powered by either an AC or DC source Choice of three field adjustable analog output signals Easy to calibrate in the field Sensor Pod ...

The SPC series Temperature/Humidity transmitter incorporates two sensors in one attractive wall mount

enclosure for the most efficient environmental monitoring and control system. It uses a field-proven RH sensor to monitor relative humidity over 0-100% RH and a curve-matched thermistor to measure temperature over common field-selectable ranges.

Greystone Energy Systems, Inc. | ????? ? ? ?????????? ??? LinkedIn. Accuracy By Design | Greystone Energy Systems Inc. is one of leading ISO registered manufacturers of HVAC sensors and transmitters for Building Automation Management Systems. We have conscientiously established a worldwide reputation as an industry leader by maintaining leading-edge design technology, ...

Direct correlation to CO2 levels High sensitivity and fast response Stable long-term operation 0 to 2000 ppm CO2 equivalent output signal LCD to display air quality information Internal menu for easy setup Analog stepped output for damper control Linear output for logging and control Selectable 0-5 or 0-10 Vdc signal Tri-color LED to indicate IAQ level Optional relay output with ...
