

Where will a total solar eclipse take place in Greenland?

Experience with us. On August 12, 2026, a total solar eclipse will pass southwards through mountainous Northeast Greenland. At 16:37 in the afternoon, the shadow of the moon will reach the dramatic and isolated Blossville Coast in East Greenland. Our vessel Ocean Albatros will be anchored close to shore at the exact centre of the total eclipse.

What is Greenland solar eclipse 2026?

Home &#187; 13 Day Ocean Albatros: Greenland Solar Eclipse 2026 Witness the rare solar eclipse in Greenland, experiencing a once-in-a-lifetime celestial event in a mesmerizing Arctic landscape. Immerse yourself in the ethereal beauty of Greenland's glaciers and icebergs, complemented by the stunning natural phenomenon of the solar eclipse.

Will Greenland see a solar eclipse from the fjord?

Air flowing down from the Greenland Ice Cap into the sound dries and warms, forming an unusually sunny microclimate. Satellite observations from August 12 in past years show a better than 70 percent chance of seeing the eclipse from the fjord - among the best prospects along the whole of the eclipse track, in a spectacular Greenland landscape.

What time does a solar eclipse start in Greenland?

The shadow of the moon moves toward us from north Greenland at a speed of 4,000 kilometres per hour. The partial eclipse begins at 16:37 local time (the same as UTC and Reykjavik time), and the totality begins at 17:37. The sun at maximum eclipse will be in the southwestern sky, unobstructed by any mountains at the mouth of our little fjord.

What is Greenland's climate like during a solar eclipse?

As the eclipse shadow crosses Greenland from the north, it reaches Scoresbysund, a deep fjord (the world's largest) that stretches all the way to the island's center line and beyond. Air flowing down from the Greenland Ice Cap into the sound dries and warms, forming an unusually sunny microclimate.

What to do in Greenland?

Aappilattoq (meaning 'Red' in Greenlandic, referring to the stark granite bluffs above) offers excellent hiking opportunities, and the local choir is renowned throughout Greenland. Tasermiut (meaning 'the Settlement by the Lake') is one of Greenland's best kept secrets.

Astro Trails Project Greenland / Iceland / Spain Total Solar Eclipse August 2026. Sunrise on the 12th August 2026 will see the start of that year's total solar eclipse in northern Siberia but as the shadow crosses the North Pole it is likely to progress unwatched until it travels across Greenland.

In Greenland, the Northern Lights are visible relatively frequently, due to their geographic position. However, you should know that the visibility of the Northern Lights, in general, follows so-called solar flares. Due to solar flares, there are periods each year with unusually high Northern Lights visibility.
