

Is Greenland a good place for offshore wind power?

However, a study on wind and wave power potential on 22 islands has found Greenland to be one of the best sites for offshore wind power with 4555-5450 full load hours (FLH) in addition to good conditions for wave power with 1050-4000 FLH. Satymov et al. found 5000-6000 FLH in the south of Greenland for an improved wave energy converter.

Are renewables cost-competitive in Greenland?

Generally, high fuel prices allow for greater solar installations and thus fuel savings under an economic minimization model. The low costs of fuels in Greenland make it challenging for renewables to become cost-competitive in the analysis.

Can Greenland produce E-Fuels?

Scenarios involving a high volume of e-fuels and e-chemicals production for exports would require a significantly larger workforce possessing the required skills and expertise. The current population of Greenland, around 56,000 people, may not be able to provide the required workforce.

That sound is the sound of making electricity at Kangerlussuaq School, Greenland. That sound is a diesel-powered generator. Billowing black smoke and carbon monoxide across the playground, that generator has been the only way of producing electric to power a school which sits off the island's electricity grid. Until now.

Greenland, the world's largest non-continental island, has a unique geography that presents challenges for telecommunications and technology infrastructure. Its vast and harsh terrain, characterised by ice-covered landscapes and sparse population distribution, makes traditional infrastructure development difficult. The country's population, which is just over 56,000, is ...

Kempener et al. 2015). with the decreasing cost and improving performance of small hydro installations, solar power, wind power, and energy storage systems, renewable energy is expected to supplement or replace existing diesel grids on islands and in remote areas. denmark is a front-runner for renewable energy utilization. in 2015, wind power ...

Welcome from the team at Greenland Solutions. Greenland Solutions is a company that we have formed with great values, pride and good old fashion customer service. After spending the last 20 years in the corporate hustle and bustle and losing precious time with my young family we decided to create a business that we are truly proud of.
