

What is Firefly energy solutions?

Firefly Energy Solutions offers load forecasting, pricing, risk management, portfolio valuation, settlements, and consulting services. The platform enables Generators, Utilities, Retail Energy Providers, Direct Customers, and Financial Players to have a deeper understanding and better manage energy. By using the latest technology and sophisticated

Is a Firefly energy efficient?

Our team brings expertise in all verticals we serve. "A Firefly is the most energy efficient producer in the world. While an average lightbulb emits 50% to 90% heat to produce light, a firefly produces nearly 100% light with no heat loss. At Firefly Energy Solutions, we take this analogy and aim for that type of efficiency.

What is Firefly & how does it work?

Firefly is an analytical SaaS platform created by energy experts who are committed to accuracy, transparency, and efficiency. We compile big data to deliver up-to-date and reliable solutions to our volatile and ever-evolving industry. Our modular platform ensures your operations continue as you intended -- only better.

What are the alternatives to Firefly energy solutions?

Alternatives and possible competitors to Firefly Energy Solutions may include Crusoe Energy Systems, agentero, and Eddyfi. Firefly is a SaaS analytical platform using AI and Machine Learning to deliver risk avoidance tools.

What makes firefly unique?

Firefly is the result of our deep vertical understanding of load forecasting, pricing, risk and asset management, energy analytics, running operations, M&A, financing, among others. We consider every detail because we appreciate how small details shape significant solutions.
