

In a landmark deal signaling robust growth, Apus Energy, the Dubai-based energy conglomerate, has entered into a formidable drilling contract for Diamond Offshore's state-of-the-art Ocean BlackRhino drillship to tap into a promising exploration well off the coast of Guinea-Bissau. This agreement, fetching a daily rate unseen since 2014, underscores the ...

Energy use in Guinea-Bissau is roughly 0.3 toe per person per year, and is one of the world's lowest. The biomass represents over 95% of the total energy consumed by households in Guinea Bissau. Wood is the dominant fuel with a demand that exceeds 500,000 tons per year, followed by charcoal being the most-used fuel in the capital.

As we move into 2025, Australia is seeing real movement in emerging as a global "green" superpower, with energy storage at the heart of this. This Summit will explore in-depth the "exponential growth of a unique market", providing a meeting place for investors and developers' appetite to do business. The second edition will shine a ...

International finance institution the World Bank will support the development of Guinea-Bissau's first solar power plants with a \$35 million grant through its Solar Energy Scale-up and Access project.

ESS Inc manufacturing its energy storage system at its Oregon plant. Image: ESS Inc. Iron-saltwater flow battery company ESS Inc looks set to deploy by far its largest project to-date, a 50MW/500MWh system at a renewables hub from German energy firm LEAG, with potential for more.

Speaking at a workshop hosted by the International Battery Energy Storage Alliance (IBESA), at the RE+ 2022 industry event in California, BloombergNEF (BNEF) energy storage analyst Helen Kou said that supply chain problems could signal a 29% reduction in forecasted deployments in the US.

As we move into 2025, Australia is seeing real movement in emerging as a global "green" superpower, with energy storage at the heart of this. This Summit will explore in-depth the "exponential growth of a unique market", ...

The World Bank has launched a tender to seek consultancy companies interested in carrying out a feasibility

study for the construction of a solar-plus-storage solar park in Guinea Bissau, West...

Offshore exploration might be the future of the energy sector in Guinea Bissau, with various projects underway to expand the country's oil and gas sector. ... The technical storage or access is strictly necessary for the ...

By the year 2020, 90% of the population with access to electricity worldwide was surpassed. However, the reality is very different for many countries, especially for those on the African continent that had more than 572 million people without electricity service at the end of 2019. This work studies the implementation of an isolated microgrid activated with photovoltaic ...

Julia Souder, CEO of the Long Duration Energy Storage Council, explores energy storage as the cornerstone of power grids of the future.. This is an extract of a feature which appeared in Vol.35 of PV Tech Power, Solar Media's quarterly technical journal for the downstream solar industry. Every edition includes "Storage & Smart Power," a dedicated section ...

Our Guinea-Bissau permits are an emerging strong component of our diversified African exploration portfolio and have the potential to add significant value for our shareholders." FAR's Guinea-Bissau Blocks. FAR holds a 15% participating interest and 21.43% paying interest in Sinapa Block 2 and Esperanca Blocks 4A/5A in offshore Guinea-Bissau.

Guinea-Bissau: Energy intensity: how much energy does it use per unit of GDP? Click to open interactive version. Energy is a large contributor to CO 2 - the burning of fossil fuels accounts for around three-quarters of global greenhouse gas emissions. So, reducing energy consumption can inevitably help to reduce emissions.

Guinea-Bissau's energy and transport infrastructure are at the core of the recently published Country Strategy Paper 2022-2026. To address Guinea-Bissau's development challenges, the African Development Bank's (AfDB) new strategy will promote economic diversification, structural transformation and lay the foundation for inclusive, resilient and ...

The US energy storage industry saw its highest-ever first-quarter deployment figures in 2024, with 1,265MW/3,152MWh of additions across all market segments. According to the Q2 2024 edition of the US Energy Storage Monitor report by research group Wood Mackenzie, published in partnership with the American Clean Power Association (ACP), this ...
