

What is the Hungarian battery industry platform?

On July 1, 2021, ZKK, in cooperation with the Ministry of Innovation and Technology, established the Hungarian Battery Industry Platform, which brings together more than sixty industrial, academic and public administration institutions. They began preparations to establish the Hungarian Battery Association.

Why is Hungary a good place to buy a battery?

Hungary is ideally located on the European battery map, thanks to its central geographical location, investments in cell and battery production facilities, the presence of large car manufacturers and its extensive supplier industry.

Why is battery storage important in Hungary?

State-of-the-art battery storage has great development potential in both areas all over the world. Hungary's industrial, R&D traditions and capabilities are already outstanding in this field. The development of this sector can make the Hungarian battery industry a strategically important one in the Hungarian economy.

Where is the battery industry located in Hungary?

Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants. Since 2016, a total of HUF 1,903.8 billion (EUR 5.29 billion) and approximately 13,757 jobs have been created as a result of working capital investments in the battery industry.

Who manufactures Car batteries in Hungary?

GS Yuasa also produces automotive lithium-ion starter batteries, while Inzi Control also manufactures battery modules. Many of the significant suppliers of the battery industry in Hungary are located directly near the main car manufacturing plants.

What does the Hungarian battery Association do?

The aim of the Association is to represent the interests of the companies active in the Hungarian battery value chain and to promote the development and European integration of the Hungarian battery industry by ensuring professional cooperation between governmental and institutional bodies.

One of the nice things about a Segway tour is that you can navigate hills and long distances quite easily. We managed to see both the Buda and Pest sides of the Danube. We saw the Hungarian Parliament Building, Castle Hill, St. Stephen's Basilica, Hungarian State Opera House and Buda Castle. This was a great tour with a great guide.

Tips on local languages, mobile tech, and time zones We all know the feeling: your phone battery is dying or you're passing through an area of weak signal. At home, it's usually a simple annoyance, but when you're traveling, not having access to a communications device is something you'll want to avoid. So, how [...]

EBA250 will participate at the Hungarian Battery Week 2024 taking place in Budapest on 6-8 November 2024. The Hungarian Battery Week is a comprehensive event connecting industry leaders, top battery manufacturers and experts in the heart of Europe.. The 4th Hungarian Battery Day will be held on the first day of Hungarian Battery Week (6 Nov), followed by the E-mobility ...

Tips on local languages, mobile tech, and time zones We all know the feeling: your phone battery is dying or you're passing through an area of weak signal. At home, it's usually a simple annoyance, but when you're traveling, not having ...

I was just prepared to do the usual Budapest city attractions in winter when I chanced upon "Outdoor Adventures Hungary" and emailed Gyuri, the guide, who replied promptly for a half-day hike - "Panoramic Hike in Budapest". Gyuri made thoughtful planning of the trail according to my pace to two look-out points of the valley out of Buda.

This move aligns with CATL's ongoing construction of a significant battery factory in Debrecen, Hungary, which is set to supply major automotive companies like BMW and Mercedes-Benz. Jason Chen, who heads CATL's operations in Europe, indicated that the company aims to address environmental concerns related to battery production and disposal ...
