

Who is Ihat?

IHAT is a green solutions innovation leader who is accelerating the green energy systems transition and helping to drive sustainable growth for businesses and economies in equitable ways. Land, approvals, and insurance have been secured and suppliers have been selected as the project enters its final phase before construction begins.

What is Ihat news & events?

Renewable Energy News That Matters. iHAT News And Events. Serving as green solutions innovation leaders who are accelerating the green energy systems transition and helping to drive sustainable for growth for businesses and economies in equitable ways.

What makes Ihat unique?

People are iHAT's most valuable asset and our focus on innovation adds value to both iHAT internal and community human resources. Green Hydrogen Energy storage for providing on-demand clean energy with no waste. Green Hydrogen storage is beyond lithium, providing long-duration storage, operational flexibility and efficiency in power delivery.

What does Ihat stand for?

SARATOGA, CA, USA, January 30, 2023 / EINPresswire.com / -- Canadian Renewable energy and infrastructure pioneer, iHAT Technologies Inc. (iHAT), announced today the beginnings of final technical and economic diligence by INESC-TEC for their Montijo Clean Fuels Hub (MCFH) near Lisbon.

Why should you choose Ihat?

The transition to incorporate sustainability for Governments, Businesses & Communities presents countless opportunities and iHAT is here and ready to help create and execute optimal solutions. Our mission is to drive the shift to a decarbonized society, enabling stakeholders to access renewable energy for sustainable living.
Vision

iHAT Technologies Inc. understands the need for a properly designed Master Plan/Electrical Infrastructure Plan. The Utility Infrastructure Master Plan provides an analysis of the present utility system currently serving the facility, identifies potential problems associated with each of these utility systems and defines future requirements and ...

At iHAT Technologies, we recognized the growing concern for a supply of safe and secure food around the Globe. Having strong ties and relations with Producers and Purchasing Groups positions us well to help build transactional relationships in both Private and Government sectors..
