With a high 0.9 power factor, controllable outlets and extended runtime options, Vertiv Edge is a cost-effective choice for ...

We provide a complete range of Single-Phase, Three-Phase UPS and Modular products to ensure a constant supply of clean and reliable power for mission critical and industrial applications. In addition to our wide range of UPS systems, we offer project management, planning services for end-users and consultants, and comprehensive after-sales ...

An Uninterruptible Power Supply, or UPS, is required when the AC power that runs sensitive equipment is not reliable or not well regulated or filtered. During power brownouts or blackouts the UPS can provide AC power to the equipment, such as computers or emergency lighting, for a period of time, usually until normal power source is restored.

EFFEKTA has enjoyed success as a manufacturer on the market for uninterruptible power supply systems (UPS) for almost 40 years. Over those years, we have become a watchword for reliability and quality and we are one ...

An industrial UPS (Uninterruptible Power Supply) system is a backup power device designed to protect critical equipment in industrial settings from power outages, voltage fluctuations, and surges. It ensures continuous power for machinery and electronics during interruptions.
