goal was codified when Guam's legislature passed a Renewable Portfolio Standard (RPS) in 2008 which was updated in 2019, establishing a goal of meeting 50% of net electricity sales from renewables by 2035 and 100% by 2045. The territory has strong solar and some wind resources

Learn how GPA's Clean Energy Master Plan will bring Guam to 50% renewable energy by 2030 and 100% by 2045. Clean Energy Master Plan. s. GPA will achieve a 25% renewable energy portfolio mix by 2024. Learn about our Clean Energy Master Plan and how it ...

Solar energy offers a sustainable, renewable, and abundant power source for the island of Guam. Solar power is mainstream, and with a Federal Tax Credit of 30%, the time is now to invest in a solar system that will lower your power bills, increase the value of your home, and reduce greenhouse gas emissions.

The investment will fund Mangilao Solar, a 60 MWdc photovoltaic power plant with a 32 MWh battery energy storage system located in Mangilao, Guam. Once completed, this solar farm is expected to lower Guam's dependence on imported oil and significantly lower the cost of power to the people of Guam.

BEIJING, Jan. 14, 2021 /PRNewswire/ -- JA Solar recently announced that it supplies all PV modules needed to complete an 88MW project in Guam vested in and constructed by Korea Electric Power ...

Once completed, the project will become the largest single photovoltaic (PV) power plant in Guam, according to the announcement. Given the project's island location with strong wind conditions, there were higher ...
