

We really like our new Franklin battery system. The installation was very straightforward. It seems to be operating very well unnoticed in the background. ---- Bruce Scott. We have a 3 battery system and it works extremely well. We have had a great experience and feel we received great value in choosing the FranklinHW system.

So, what about the "WH" after Franklin? As shouldn't be a surprise, coming from a company

focused on R& D, it's the brainchild of a bunch of tech geeks - our founders. "WH" initially stood for "watt-hour," using the unit of energy to reflect the company's mission of creating optimized home energy management systems.

Our Promise. FranklinWH promises to deliver cutting-edge, dependable, whole home energy management solutions. Our dedication to quality, innovation, exceptional aftercare and compatibility guarantees an unparalleled customer experience.

Installing solar panels in your home is an excellent way to save money while also helping the environment. However, if you want to reap the full benefits, you must also incorporate an off-grid home battery system.

Through the FranklinWH App, you can manage your home energy system anytime and anywhere. The app monitors and allows you to control your home electricity consumption 24 hours a day, tracks solar power generation and the charging and discharging conditions of the batteries, and provides statistics on your home electricity consumption over time.

The company manufactures the Franklin Home Power system. Founded in 2019, headquartered in the San Francisco Bay Area, and funded by Sequoia Capital, FranklinWH's team has decades of experience in energy systems, from design, through manufacturing, to sales and installation. They also have AVL listed with multiple financial institutions.
