

Morocco uses a 220 Vac 50 Hz electrical system, and power inverters are a central part of the way of life there, because they help provide electricity when and where there is none. AIMS Power understands that many places in Morocco are completely without a power system of any kind -- so we work to provide solutions in this area.

Understanding Grid Tie Solar Panel Kits. With the rising cost of energy prices, solar home kits have become increasingly popular. These grid-tie kits provide the essentials needed for setting up your home to receive electric power from the sun. Some things to consider regarding the usage of solar home kits include:
