The Vatican goes green: Pope announces new solar plant to power Vatican City Pope Francis waves during his

weekly general audience in the St. Peter's Square at the Vatican, Wednesday, June 26, 2024.

The Vatican has been seeking to drastically reduce its environmental impact by adopting more renewable energy sources, pursuing a goal of zero emissions by 2050 and assembling a net-zero-emissions fleet of vehicles by 2030. In 2022, The Vatican joined the 1992 United Nations Framework Convention on Climate Change and the 2015 Paris Agreement.

Pope Francis has announced plans for the Vatican City to go solar through his latest motu proprio, Fratello Sole, or Brother Sun. The pope has delegated Vatican governing bodies to work with the Italian government to build an agrivoltaics system in the lands of Santa Maria di Galeria, located outside of Rome and an extra-territory of Vatican City.

Pope Francis said the Vatican is committed to "contribute to the efforts of all states" to address climate change challenges. The new plant aims to provide 100% of the energy for the Vatican City State. The Vatican's global emissions were less than 0.0001% in 2022. Photo credit: Todor Stoyanov / Shutterstock

We offer a comprehensive selection of high-efficiency solar panels and wind turbines to capture the power of the sun and wind, transforming them into clean, renewable energy for your home ...

This perspective highlights the dynamic and proactive aspects of freedom in the context of business and economic development, which is Lunyati Solar Energy Corporation's key strategy for ensuring positive economic growth in the energy sector.

Pope Francis, a vocal campaigner for action against climate change and on environmental protection, on Wednesday ordered the construction of a solar farm to cover the energy needs of the Vatican ...
