This step by step guide covers the physical installation of Pixii Home residential system, as well as the commissioning of systems through the Pixii Home Installer app. This course is a prerequisite for working on the Pixii Home systems. After this course you will be certified to sell and install Pixii Home systems to end customers.

The Pixii BESS solution is more than an infrastructure upgrade; it's a commitment to a resilient, adaptive energy future. By adopting Pixii's innovative approach, DSO's and BaaS providers are not just keeping pace with the present; they are gearing up for a future that values sustainability, efficiency, and adaptability above all else.

Product Manager On-grid Applications at Pixii Henrik is passionate about developing products that meets the market requirements and supporting customers in finding their optimal solutions. With his engineering and power market background he understands the value chains, and makes sure Pixii's product portfolio and partners always meets the ...

Pixii is happy to announce that Rexel will distribute Pixii's products in Sweden, a key market for Pixii's smart energy storage solutions. Together with its installation customers, Rexel will target commercial and public property owners and industries with Pixii PowerShaper cabinets as well as the residential market with the newly launched ...

Pixii introduces the PowerShaper XD and Energy Architect EMS - innovative systems designed to tackle the unique challenges faced by energy integrators, installers, and solar companies in Australia. Diesel generators have long been a staple for backup power in the outback, but they come with drawbacks - noise, emissions, and ongoing fuel costs.

Named Norway's fastest-growing tech company in 2023, Pixii AS has developed a fully integrated, modular and scalable technology which enables homes and businesses to make the most of existing or new solar installations, along with applications like fast EV charging. Beyond reducing energy costs, Pixii's solutions enable building owners to ...

Milence selected Pixii to develop a robust and scalable BESS for the Venlo charging hub. A Pixii PowerBase system was installed with a 520 kW / 1.1 MWh battery energy storage capacity, supported by a total of 13 PowerShaper cabinets-one of which was deployed in addition to the main PowerBase setup.

The Pixii Home battery energy storage system is quick to install and easy to use, helping you get more out of your solar panels and reduce your dependency on the grid. Pixii Home is a compact, all-in-one solution that combines cost-saving ...
