

X-Pact® Battery Storage is the advanced, reliable, modular and scalable containerized BESS solution for any energy management strategy in any environment. BESS technology enhances performance at every stage of the power transmission chain. It is an important pillar of green steel technology, as green steel production requires an entirely new energy infrastructure.

Our joint venture Primobius develops an environmentally friendly recycling solution for end-of-life and scrap lithium-ion-battery (LiB) cells which will be crucial for the successful transition towards e-mobility. The industrial-scale demonstration plant in Hilchenbach (Germany) will soon start operation and will demonstrate how the process works and what performance potential it ...

The Republic of the Marshall Islands (RMI) is situated nearly midway between Hawaii and the Philippines, and is the easternmost island group in Micronesia.
