

According to the MCS Foundation database of registered installations, more than 30,000 heat pumps and renewable energy technologies were installed last year. Scottish Government grants for homeowners through schemes such as Home Energy Scotland, and the UK Governments ECO4 scheme have helped make this possible.

Very grateful to Matchless Energy, job superbly done" Jen Paterson, Google Review (April 2024) We have helped thousands of home owners like you! ... If you are a homeowner or tenant and part of the Help to Heat Group (HTHG), you may qualify for ECO4. Eligibility criteria include receiving one of the following benefits and meeting the ...

The CAS campaign, "Worried this Winter" was launched to support the 2.2 million Scots who are worried about managing their energy payments this winter, amid the continually increasing cost of living and unaffordable energy costs, despite the price cap falling.

1. For these terms and conditions, the following words shall have the following meanings: 2. The term "Company" shall mean Matchless energy group Ltd. 3. The term "Customer" shall mean the person or organisation for whom the company agrees to carry out works and/or supply materials

Matchless Energy found its roots through the desire to provide a customer focused company, known for being the trusted opposite of what's come to be expected in the industry. Whether it be poor quality, unclear contracts, unpleasant support and so on, we believe that you deserve better .

Yes. With that being said, properties that are not energy efficient may struggle to make use of heat pumps as an independant heating method. With Matchless Energy, we can assess your property and provide appropriate feedback on what is possible, as well as providing options and solutions in accommodating a new heat pump. How do I find an installer?

Just because an energy saving scheme or programme such as ECO4 exists, doesn't mean that "any old contractor will do." The traumatised residents living in damp and mouldy houses because of poor workmanship can attest...

Maintaining your heat pump also ensures you minimise your carbon footprint. According to Energy.gov, a well-maintained heat pump can deliver 10-25% more efficiency than a severely one. Important: In order for warranties and guarantees to remain valid, ...

Whilst Air Source Heat Pumps continue to revolutionise the industry, manufacturers are being forced to increase sales or face fines of £3,000 for every unit they fall short by, in a crucial move toward

decarbonising home heating.

In 2000, the Internet was referred to as a passing fad. Similarly, renewable energy is often looked at in similar ways. But, just like the internet... Renewable energy is here to stay. Soon enough, we won't use words such as "renewable," because it'll simply become the standard in ...

The programme aims to do two things. One, to help people reduce their energy consumption, and two, to help people save money on their energy bills. At Matchless Energy, we can help you... We are on a mission to bring energy efficient solutions to all corners of the market, and to support those who are eligible to gain government funding to pay ...

About Matchless Energy Group. Information written by the company. Need a new boiler? Want to install an Air Source Heat Pump? Keen to explore funding and grant options such as ECO4 or Home Energy Scotland? Matchless Energy can help you. Contact. [info@matchlessenergygroup](mailto:info@matchlessenergygroup) ; 0141 260 9511; 7 Seaward Place; G41 1HH; Glasgow;

Green energy: Not only do heat pumps require little electricity to run, they draw heat from the air making their energy source completely renewable.. Energy efficient: For every 1kWh of electricity used, air source heat pumps produce ...

The scheme focuses on inefficient heating systems such as electric, oil and LPG, and aims to upgrade homes to renewable energy sources. With the focus on supporting the least energy efficient homes in the country, those on a low income, those on income support, and vulnerable households, ECO4 is all the rage. However, it's not going to last.

Matchless Energy is LIVE, and alongside our partner companies, we're here to clean up and help revolutionise the heating industry. We'd like to extend a huge thanks to all of our team, partners, suppliers and customers for being part of ...
