

Washington, D.C. - In a historic move to boost Sierra Leone's energy sector, the Government of Sierra Leone and the U.S. Millennium Challenge Corporation (MCC) signed a \$480 million Energy Compact on Friday.

The Government of Sierra Leone is also seeking infrastructure investment to support expansion of energy distribution and transmission networks. Sierra Leone has good access to natural resources necessary for energy production such as access to viable wind speeds and sunshine for renewable wind and solar projects.

Sierra Leone Telegraph: 01 October 2024: President Julius Maada Bio has hailed the signing of the USD \$480 million Millennium Challenge Corporation (MCC) Energy Compact as a "significant milestone" for Sierra Leone, committing to the successful implementation of this historic investment aimed at overhauling the country's energy sector.

Sierra Leone is no exception, with only 26% electrification, mainly in urban areas and peri-urban areas¹. The private sector is pivotal if the country is to achieve 85% renewable energy capacity ...
