

Why is solar wholesale Midsummer trading at a high level?

Image: Midsummer. Solar wholesale Midsummer is trading at a level that is three times its sales volumes from a year ago, as demand for solar continues to be strong. Amid the high power prices in Britain, the need to transition to secure and green domestic renewable generation has been given further impetus.

How did Midsummer wholesale cope with demand?

Andy Rankin, managing director at Midsummer Wholesale, said the company had invested to increase its online presence in the last year, improving its online ordering system. Three additional sales staff have also been hired to cope with demand. "Winter months are usually quieter for PV sales but orders have been flooding in," he said.

Is Midsummer a good company?

We use Midsummer for 99% of our installations. They have an excellent selection of quality, reasonably priced products and the integration with Easy PV makes it super easy to order/edit/pay for your kit. Our account manager Vanessa is friendly, helpful, approachable and usually replies to queries within the hour.

Midsummer began on a narrowboat in 2005. Our MD Andy lived off-grid and, as a former climate scientist, had experience with PV and battery systems in remote locations. The company grew steadily from these modest beginnings and was well placed to seize the opportunity that the feed-in tariff brought for the UK solar industry in 2010.
