

What is the main energy source in Moldova?

Natural gas accounts for more than half of Moldova's total primary energy supply (53% in 2018), oil roughly a quarter (23% in 2018) and solid biomass one-fifth (19% in 2018). Most natural gas is used for electricity and heat generation,³ whereas oil is the most important energy source for final consumers.

What is Moldova's energy consumption?

Transport sector is the second-largest energy consumer (around 0.7 Mtoe) and the main driver in oil consumption growth. Renewables represent 20% of Moldova's energy mix, consisting almost fully of solid biofuels (19% in 2018). 6% of electricity generation comes from renewable sources (hydro, wind, solar PV).

How much natural gas does Moldova use?

All natural gas consumption (2.1 Mtoe, or 2.9 billion cubic metres (bcm) in 2018) is met through imports, mainly from Russia. A gas interconnector to Romania is under construction to reduce dependence on Russian gas. Imports cover 99% of Moldova's oil consumption (1.0 Mtoe in 2018, of which almost 80% diesel and motor gasoline).

Does Moldova need a gas pipeline?

Once at full capacity in 2020, the pipeline is expected to supply almost all the gas Moldova consumes, but not that of the Transnistria region. The government also plans to diversify the energy mix with more renewable energy.

Why did Moldova suffer an energy crisis in 2022?

Moldova experienced an energy crisis in late 2022, which was the worst since its independence. The crisis was heavily influenced by the Russian invasion of Ukraine, causing Russia's Gazprom to reduce supplies.

How does Moldova share energy data?

Moldova shares energy data through five annual International Energy Agency (IEA)/Eurostat/UN Economic Commission for Europe (UNECE) joint questionnaires.

Indeed, Moldova barely registers on energy demand. Its overall consumption per capita is approximately half the European average at 1.5 tonnes of oil equivalent, 3 billion cubic meters (bcm) of ...

Moldova's parliament on Friday voted in favour of imposing a state of emergency in the energy sector over fears that Russia could leave the European Union candidate country without sufficient natural gas supplies this winter. A majority in Moldova's 101-seat legislature voted to pass the state of ...
