The culmination of local expertise and SATEC's Global leadership in metering, power quality analysers and software provides a source of knowledge to satisfy customer ...

SATEC's on-line service, eXpertpower, collects, archives and analyses energy and power quality data. eXpertpower allows multiple users to view data, create automated billing, produce sophisticated reports and implement energy. VRM ...

Consult with us. The contemporary business mindset is often based on a practical solution-oriented approach. As a result-driven client, you prefer the greater picture and bottom line over the ins and outs of technically complex systems.

By SATEC (New Zealand) Pty Ltd | | 0 comment | 29 March, 2020 | 0 SPLIT CORE CURRENT

TRANSFORMERS The SCT-DP series of split core current transformers have been especially designed to facilitate their installation in new or existing networks.

For over a decade SATEC has pioneered the implementation of this advanced communication protocol, starting with its flagship, the PM180 power quality analyzer. Ever since, SATEC has set the goal of implementing IEC 61850 in its leading products, new releases, as well as legacy products. See below SATEC products featuring IEC 61850.

By SATEC (New Zealand) Pty Ltd | Product News | Comments are Closed | 8 June, 2020 | 0 SATEC's continued advancement in metering technology introduces the next generation of multi-circuit branch feeder metering for energy and load management.

SATEC's offer for reaching such optimization includes a unique implementation of its high-end metering equipment, with a special emphasis on multi-circuit meters, and the Expertpower Energy Management software suite. The two together enable online energy monitoring, alerting to irregular consumption and reflecting system efficiency. ...

The EM133-XM is a comprehensive multi-functional, National Measurement Institute (NMI) approved smart energy meter, which provides a complete range of energy measurement and management. It measures the electrical energy and connects via digital inputs to water, gas or air condition meters.

SATEC's unique solutions for Renewable Energy Management. PM180 DFR/PMU. SATEC wins tender for national DFR/PMU platform. Steel Corp. Saves \$\$\$ SATEC EMS Saves Steel Corporation US\$10 Million Annually. \$30K in Utility Refund. ...

By SATEC (New Zealand) Pty Ltd | Featured, Product News | Comments are Closed | 8 June, 2020 | 0 SATEC's eXpertmeter EM133-XM-HACS is the 1st DIN meter approved by the National Measurement Institute (NMI) to be used for three (3) Single-Phase Smart-Meters in a single compact unit!

A Phasor Measurement Unit, or PMU for short, is the essential building block in the platform called Wide Area Monitoring System (WAMS). These systems were developed to provide an overall real-time health check of nation-wide transmission grids, predicting and helping to prevent power failures, analyzing those which did take place.
