The market for battery energy storage is estimated to grow to \$10.84bn in 2026. The fall in battery technology prices and the increasing need for grid stability are just two reasons GlobalData have predicted for this growth, with the integration of renewable power holding significant sway over the power market.

The Battle of Merville Gun Battery was a series of British assaults beginning 6 June 1944, as part of Operation Tonga, part of the Normandy landings, during the Second World War. Allied intelligence believed the Merville Gun Battery was composed of heavy-calibre 150 mm (5.9 in) guns that could threaten the British landings at Sword Beach, only 8 miles (13 km) away.

FPL's investments in battery storage technology directly complement the company's expansion of solar
