The JA Solar 550W Mono Solar Panel is a high-performance photovoltaic module designed for residential and commercial solar power systems. It features a high-efficiency monocrystalline silicon solar cell, with a peak power output of 550 watts and an open-circuit voltage of 42.1V.

Re: Mobil - Tyco Panels Have you yet checked the short circuit current in amps, while the PV's are exposed to full sunlight? That could give some clues. If the current looks "reasonable" and both panels output roughly the same current, they are probably good panels, designed, like James said, for 6 volts.

Inspect your solar panels periodically. This is very important since solar panels are always exposed to dust and debris. It is important to check for the accumulation of such materials during unexpected climatic changes. Clean your solar panels periodically. There are several steps to take when it comes to cleaning your solar panels. Here are a ...
