

What will New Zealand do with the Niue ocean wide trust?

The project will bring Niue's renewable generation to 80 percent. New Zealand will also commit \$2 million to the Niue Ocean Wide Trust, which aims to develop a blue economy and ensure long-term ocean conservation and climate resilience.

Does a Boston Medical Center building have a solar array?

The solar array on the rooftop of a Boston Medical Center building provides power for the building as well as credits for the Clean Power Prescription program.

Can Boston Medical Center share solar energy with patients?

Boston Medical Center is looking for partners who might want to share their solar energy with the hospital's patients in exchange for a higher federal tax credit or reimbursement. Eversource's vice president for energy efficiency, Tilak Subrahmanian, said the pilot was a complex project to launch, but now that it's in place, it could be expanded.

How many solar panels does Boston Medical Center use?

The initiative aims to help roughly 80 patients with complex, chronic medical needs keep the lights on. The program relies on 519 solar panels installed on the roof of one of the hospital's office buildings. Half of the energy generated by the panels helps power Boston Medical Center.

Which countries are funding infrastructure in Niue?

New Zealand is the dominant funding partner for infrastructure in Niue, but there are a number of other countries such as Australia and Japan which have funded facilities, he said.

Does Niue have a wharf?

Niue is undertaking feasibility work on its wharf which was built in the 1930s to work out what was needed, he said. It can be difficult to get boats in and out of Niue in bad weather, Luxon said. The wharf and the runway were both critical pieces of infrastructure and how Niue stayed connected to the world, he said.
