

What is TuNur energy doing in Tunisia?

In Tunisia, Nur Energie is developing the world's first CSP solar export project between North Africa and Europe. For more information about the TuNur project please visit the TuNur company website:

Why should you invest in solar power in Tunisia?

Nur Energie has built and maintained a solar weather station for 3 years on the TuNur site to receive real time solar data on the ground. Tunisia has up to 20% better radiation than some of the best sites in Europe, and the Sahara desert provides significant land to develop large scale solar power projects.

Where is TuNur energy located?

The site is located in the Sahara desert and has a solar radiation level of 2500 kWh/m<sup>2</sup> annually. Nur Energie has built and maintained a solar weather station for 3 years on the TuNur site to receive real time solar data on the ground.

Why should we invest in CSP technology in Tunisia?

In Tunisia the project will contribute to industrial development, improve energy security and will establish expertise in CSP technology and industry in the region.

Renewable energy investment company, Low Carbon and utility scale solar developer Nur Energie, are partnering in the development of their TuNur project. TuNur is a flagship 2GW solar export project in the Tunisian ...
