

Who is Babcock Australia?

"Babcock has operated in the remote Torres Strait and Northern Peninsula regions for more than 26 years and has more than 30 personnel employed and trained to meet the high standards required for these mission-critical services," said Darren Moncrieff, Babcock Australasia's managing director - aviation and critical services.

Where is Babcock & Wilcox located?

(AKRON, Ohio - September 2, 2020) - Babcock & Wilcox (B&W) (NYSE: BW) announced today that it is establishing its Asia-Pacific Region headquarters in Perth, Australia, to serve as the center of operations for its expansion in the Asia-Pacific market. B&W has named Nick Carter as Managing Director of the region.

What does Babcock do?

Babcock delivers aerial support for emergency medical services (EMS), including hospital transfers, primary medical evacuation and search and rescue (SAR).

How does Babcock help paramedics in the Torres Strait?

Babcock provides specialist aeromedical training to the customers' paramedics, which enables them to conduct down-the-wire water winch rescue operations in addition to their medical duties." The challenges of operating across the Torres Strait extend beyond those posed by the weather and environment.

Is Babcock & Wilcox establishing a strong presence?

Establishing a strong presence in this region, along with a key management and operations team, is an important next step for Babcock & Wilcox," said B&W Chief Executive Officer Kenneth Young.
