Over the longer term, improving the business climate, particularly as it relates to crime, and addressing external imbalances will be key to support growth and investment of El Salvador's manufacturing sector. We forecast El Salvador's economy to grow 2.7% in 2024, up from our previous growth forecast of 2.1%. This comes on the back of a ...

Key View. We maintain our core view that El Salvador's real GDP growth will slow to 2.7% in 2024 and 2.2% in 2025, from 3.5% in 2023. However, the election of Donald Trump poses threats to our growth outlook as his support for protectionist and tougher migration policies may lead to reduced textile exports and remittance inflows.

Uwe Martinz, president and CEO of Coatl, says the project will "evolve towards solar solutions". Caban's hardware and software will provide standalone or back-up power on any site. Coatl says its wholesale business model will provide network security with end-to-end data encryption over its 100Gbps capacity transport layer.

AES El Salvador about. Deliver affordable non-polluting energy is also our purpose. Through our 100 MW solar photovoltaic project (AES-CMI partnership) with 10 plants of 10 MW each; from our solar plants Cuscatlán Solar, Opico Power, AES Meanguera del Golfo - which combines an innovative solar generation system with battery storage - and Moncagua, of 10 MW, 5.2 ...
