

Today in Vietnam Ritar factory, batches of Ritar batteries are produced and packed here, and containers are ready for shipment! The monthly shipment volume of Vietnam Ritar has increased from RMB 2 million yuan at the beginning of production to 90 million yuan today!

Introduction: In recent years, electric vehicles (EVs) have gained significant popularity as a sustainable alternative to traditional gasoline-powered cars. One of the key components that make electric vehicles possible is the battery. Electric vehicle batteries are complex and advanced pieces of technology that store and supply the energy needed to power ...
