Aerial view of the 5000 square meter roof full of solar panels, in one of the pavilions of La Rural, the busiest fair and exhibition center in Buenos Aires. It is the largest private solar park in the capital of Argentina and required an investment of almost one million dollars. CREDIT: Courtesy of La Rural

Does Argentina have a solar energy industry?

“Argentina has a national industry for the production of solar thermal tanks, but not for the manufacture of panels, inverters or batteries, despite the fact that the country has one of the largest reserves in the world, the main component. But we are confident that international prices will go down and drive demand,” he said.
