

In 2023, Rotex continued to focus on associate safety through plant improvements, strengthening our educational partnerships, and delivering solutions to support our customers' sustainability goals. Rotex was a key ...

Rotex Screeners can be cable-suspended from the four corners of the machine, thereby isolating screening forces from the surrounding structure. Accurate counterbalancing of the Rotex Screener makes this type of installation option possible. If the existing overhead structure is not suitable or structurally unable to support the cable-suspended ...

In addition, Rotex has enacted programs to replace lighting systems with LED lights and are examining the possibility of adding solar panels to its Cincinnati, Ohio, headquarters. Check out the report to read more about ...
