Rowan Energy Norway is a dynamic and innovative company specializing in the oil, energy, gas, and petrochemical sectors. With a strong focus on crude oil drilling, oil exploration, and renewable energy sources, we are committed to delivering sustainable solutions in the energy industry. At Rowan Energy Norway, we prioritize safety ...

Rowan Energy is building the largest network of interconnected decentralised energy assets in the world. All of these assets are linked together by the custom-built Rowan Blockchain. Decentralised energy sources are added to the network by connecting them to our blockchain through our SmartMiner device.

For every 1kWh of energy you generate, you will earn 10p worth of Rowan Rewards, which you can withdraw in pounds and pence to spend as you like. Once you have earned your Rowan Rewards, they can be withdrawn into your PayPal account to spend as you want. You can send them to a Rowan Coin or save them for future growth.

The Rowan Energy Customer Portal system is incredibly easy to use. Once you have the SmartMiner installed you can log into your portal account where you will see all the information you need, as well as options to redeem your Reward Points. The SmartMiner itself is designed so that it doesn't ordinarily need to be interacted with.

Rowan Energy | 15,087 followers on LinkedIn. The world's premier transparent decentralised peer-to-peer renewable energy network | We are building the worlds first community fed green energy; Rowan Energy. Our members will be part of a new and exciting energy revolution. Members will be able to buy their energy from other members who produce it using solar panels.

If you are considering residential solar in 2024 - you are simply losing out by not taking advantage of the incentives Rowan Energy is offering: Earn an extra £0.10 per kWh for generation on your package. For the standard 5kWp package, that's up to £450 in additional income per year! Reduces the payback time of a typical solar + battery installation from 15 years to under 10 ...

The Rowan energy solution has massive wide-ranging potential. Once the pilot scheme has proven the process is easy, quick, and gives great ROI to users, we expect to start a national roll-out. 3.

The Rowan Energy blockchain aims to become the transactional medium for this network with the RWN coin powering that medium as the designated currency of exchange. The energy market is already decentralising itself, and we're here to be the rising tide that lifts all boats and elevates decentralised energy to its full potential.

In the future, customers will use Rowan Coin to buy and sell their energy, pay for their energy bill, offset their carbon footprint using Rowan NFT Carbon Certificates, charge their EVs, and pay for their EVs to be serviced - plus a whole number of other use cases. Our cryptocurrency is a fundamental part of our business infrastructure.

But our hardware is also a mining solution for the Rowan Green Energy blockchain, allowing you to do proof-of-authority mining & create carbon offset certificates (REC"s) proving exactly when ...

Cy joined Rowan Energy in 2022 as Vice President of Operations, leading the company to rapid growth with RKO deployments and 24/7 operational support. His extensive operations experience and strategic leadership skills have been integral in guiding Rowan Energy to becoming a leading oil and gas service company.
