

En Rubix Energy Group trabajamos para resolver un problema oculto: reciclar de manera responsable las baterías de 800.000 baterías de plomo-ácido usadas que se desechan en el país cada año. En lugar de llenar los vertederos de basura, con Baterías Ecuador Recicla convertimos los componentes de baterías desechados en materias primas de gran ...

With the addition of two branches, Rubix Spain has enhanced its product and service offering across the country. The transactions are in line with the Group's network development strategy. Motronic Service Sabadell, S.A ...

Industrial motor-driven systems - including compressors, pumps and fans - are typically only around 36% efficient. With the right interventions, they can be optimised to hit 72%. This cuts energy waste, reduces cost and limits emissions. At a time when the energy crisis threatens to slow - or even reverse - progress on environmental and ...
