The Trade and Investment team within SHG are responsible for managing the Approved Investor Scheme (AIS). This scheme provides duty relief incentives for businesses investing in St Helena. These incentives are designed to attract investments that are sustainable, create local jobs, reduce import dependence, and add value to local products and services. So ...

St. Helena was the mother of Emperor Constantine the Great and an Empress of the Roman Empire. Very little is known about Helena's early life, but it is believed she is from Drepanum (later known as Helenopolis) in Asia Minor and born into a poor family and lower class in the Roman culture of the ...

Over the last few months a number of questions have been asked about St Helena Airport (HLE) and air access to the Island in general. As a result, St Helena Government's (SHG) Sustainable Development Civil Aviation Team this week continues to provide answers to the frequently asked questions: Week 2: Who can fly to HLE, [...]

Over the last few months a number of questions have been asked about St Helena Airport (HLE) and air access to the Island in general. As a result, St Helena Government's (SHG) Sustainable Development Civil Aviation Team will over the next three weeks provide answers to the frequently asked questions: Week 1: The difficulties flying [...]

The origin of the Museum of St Helena begins in 1854 with the opening of St Helena Museum; among its contents were a sea serpent and a flying lizard! Over the next century there was a development of a number of small museums around the island including at Plantation House where they exhibited items from Napoleon's House at Longwood and ...

The St Helena Government Vision and Strategy is designed to focus government activity between 2022 and 2025 on where it is most needed. It aims to ensure that resources and energy are directed into the following priority areas: 1. Developing a safe and reliable Health Service. 2. Growing revenues and reducing costs

The goal: expanding solar power's reach beyond flat land. "There is a huge market where classical photovoltaics do not work," says Jan Birnstock, Heliatek's chief technical officer. Organic photovoltaics (OPVs) such as Heliatek's are more than 10 times lighter than silicon panels and in some cases cost just half as much to produce.
