

What should Serbia do with the electricity integration package?

Serbia should focus on the transposition and implementation of the Electricity Integration Package as a precondition for the coupling of its short-term markets. Serbia should certify the gas transmission and storage operators, grant third party access at the interconnection points, and remove any other obstacles to new market entrants.

What is Serbia's energy investment plan?

The Ministry of Mining and Energy has announced a EUR15 billion investment plan for the electricity sector in next several years, expecting to reach more than 3 GW of renewable energy production plants. The main players and investors in the Serbian Energy Sector are:

What is the legal setup of the Energy Agency of Serbia?

The legal setup governing the Energy Agency of the Republic of Serbia (AERS) is largely in line with the Energy Community legislation. However, the autonomy of the management related to internal organization and the use of the annual budget is limited by the requirement of the Parliament to adopt statutes and hire additional staff.

What is Serbia doing with necp?

Serbia submitted its draft NECP within the prescribed deadline and adopted its long-term strategies on low-emission development building renovation strategy. Serbia revised its Renewable Energy Law and conducted an inaugural auction for renewable energy.

Does Serbia subsidize coal & electricity prices?

Serbia heavily subsidizes coal and electricity prices, inhibiting competition. Recently, the Serbian government and EPS have announced ambitious plans to transition to green energy solutions and reduce Serbia's dependence on Russian natural gas.

Will Serbia develop a 1 GW solar power plant?

As a first step, in August 2023, the Serbian Government published a public call for a strategic partner to develop a 1 gigawatt (GW) solar PV power plant, together with a minimum of 200 MW of storage. The government also announced that it will publish a similar call for the development of a 1 GW wind power plant by the end of this year.
