

Is SK on a good EV battery company?

The company is boosting its exposure to the EV battery market as it bets on a faster-than-expected electrification of cars, with battery unit SK On accounting for 15% of revenue in the fourth quarter. Battery customers include Ford Motor Co, Hyundai Motor and Volkswagen AG.

Why did SK Group choose Kota Kinabalu as its first overseas plant?

The copper foil producer is a subsidiary of chemical and material company SKC, which is an affiliate of SK Group. During a board meeting, SK Group revealed that the choice of Kota Kinabalu as their first-ever overseas plant is due to the region's stable, low electricity cost, and high reliance on hydropower.

Why did SK Group choose Kota Kinabalu?

During a board meeting, SK Group revealed that the choice of Kota Kinabalu as their first-ever overseas plant is due to the region's stable, low electricity cost, and high reliance on hydropower. The company also added that the proximity to the port and the presence of an international airport as other key factors in their decision.
