

What are the benefits of solar energy in Eritrea?

The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel. A major benefit of solar energy is that it does not pollute the environment and saves money in the long run even if its installation cost is quite high.

What is solar Panda?

Solar Panda develops innovative solar energy systems to electrify homes and small businesses. Each upgradeable kit comes with lights, mobile charging, a radio, lantern and torch, with options for premium appliances like a TV. Our affordable financing plans save customers money now and for years to come.

Does Eritrea have solar power?

Eritrea's weather, characterized by long sunny days throughout the year, makes it suitable for harnessing solar power. Data from the wind and solar monitoring stations installed in many parts of Eritrea show that the country has a great potential, around 6 kWh/m² of solar energy.

What is Eritrea's main source of energy?

Eritrea's major source of energy is petroleum, which drains the foreign currency reserves of the country and is globally a major cause of pollution. The government of Eritrea has been making efforts to promote the use of alternative sources of energy, especially solar energy, to mitigate the problems associated with the use of fossil fuel.

How does solar Panda work?

Small daily, weekly or monthly payments using mobile money give immediate access to solar energy. The unit is owned outright in as quickly as 1 or 2 years. No more payments need to be made, and Solar Panda electricity can be enjoyed for years to come. Solar Panda offers competitive, affordable products.

Can Eritrea reverse climatic trends?

Despite these challenges, Eritrea's accession to the global environment and energy conventions are among the country's attempts to reverse the worsening climatic trends.
