Solar Panel Indonesia is a private company engaged in new and renewable energy, especially solar energy. CALL US NOW +62 21 5659340 Jln.

Why should you choose solar panels in Indonesia?

Solar panels in Indonesia are now more affordable than ever, making it both financially and environmentally attractive. By using solar power you can save on your electricity bills and reduce your CO2 emissions at the same time! It is also a great way to be energy-independent, shall you decide to go with an off-grid solar system.

Why should you choose Jakarta solar?

We craft solar plans that fit your budget and energy goals, a personalized plan just for you. Most of our recommended solar panels come with at least 25 year warranty, some with 30 year, and even 35 year warranty. Jakarta Solar is from Jakarta. That means a lot when you want service that understands local challenges. ENERGY EXPERT.

Do solar panels use PLN?

The reason is simple, solar panels only produce energy when there is sufficient direct sunlight. In Indonesia, that amounts to around 4-5 hours/day. The rest of the time you would need PLN to supply electricity to your building, especially if you wish to run air conditioners, which consume the most power in most households!

How long does it take to install a solar panel?

Solar panel installation can take as little as 1 day for a small installation, and weeks for a bigger installation. Once the system is installed, we will need to report the installation to the ministry of energy so that they can come for a site survey. This process can take weeks.
